**Sir/Madam**

**Sub:** Clarification regrading distribution of marks for 2021-22 DAESI batches-reg.

After the National Workshop on Good Practices in DAESI implementation held during 17-18, June 2021, it was decided to include Success story documentation and Herbarium collection in the practical component. Accordingly, a new pattern of mark distribution was developed and included in the revised DAESI guidelines, which have been submitted to the ministry for approval. Approval is awaited.

In this regard, based on workshop proceedings many NTIs are seeking clarification regarding the distribution of marks for the DAESI batches of 2021-22. It is to clarify that new pattern of marks will be applicable for batches that were approved and commenced after August (19-08-2021). The batches that were approved and commenced before August (19-08-2021) are free to follow either the old or new pattern of marks for the final examinations. The marks distribution for all the records is given as enclosure for clarity.

Thanking you,

Yours Sincerely

(Mahantesh Shirur)

| <b>Grand Total</b>   |   | <b>150 Marks</b> |

**Record of success stories of farmers-** Each input dealer may document five success stories from the native or adjacent villages who had done valuable contribution in the field of organic agriculture/natural farming/sustainable farming/ innovation and adoption of modern technologies. If they do not find any success stories in their areas, they can collect from nearby areas and the same can be published in local language in the local newspapers.

**Herbarium Collection:** Each Candidate is expected to collect minimum 40 herbarium sheets of weeds, disease, pest infestation and nutrition deficiency specimens from farmers' fields.
